By Appointment.

Burn's Cottage is a low thatched building of one story, wherein, on 25th January 1759, was born Robert Burns, the humble son of a peasant, but himself destined to occupy the foremost rank among the world's sweet singers. He lived here until 1766. The cottage and the adjacent modern museum contain many interesting relics of the poet, including the bunk in which he was born, and many original MSS.
